The group's results for Q3 2025

In the following, the result figures for the third quarter of 2025 are compared with the second quarter of 2025 and the pro forma figures for the third quarter of 2024. The pro forma information represents the figures as if the merger between SpareBank 1 SR-Bank ASA and SpareBank 1 Sørøst-Norge AS had taken place on 01.01.2023 og therefore includes pro forma figures for 2023 and 2024.

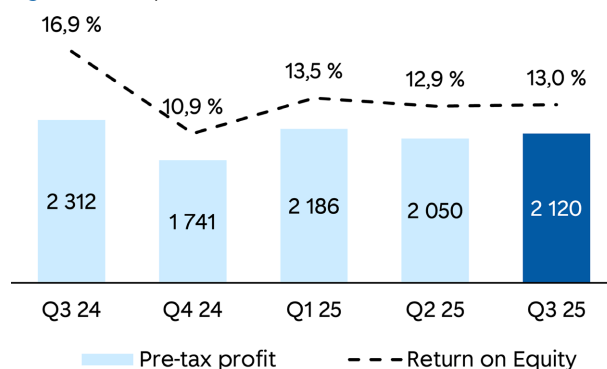

The group delivered operating profit before tax of NOK 2,120 million for the third quarter of 2025. Compared to the previous quarter, there is a reduction of NOK 4 mill, adjusted for the provision charged in connection with a court judgment in the case versus Tietoevry Norway AS in the second quarter. The decrease is driven by a moderate increase in impairments, which is offset by a NOK 26 million reduction in costs.

Operating profit before tax increased by NOK 280 million compared with the third quarter of 2024, adjusted for the following one-off effects: NOK 577 million gain from merger of Eika Forsikring and Fremtind Forsikring and NOK 105 million writedown of Folkeinvest. The improvement in profit

was due to increased net interest income, commissions and other income, net income from financial investments and a decline in impairments.

The return on equity after tax was 13.0% for the quarter (14.5% adjusted for goodwill from the merger and merger cost).

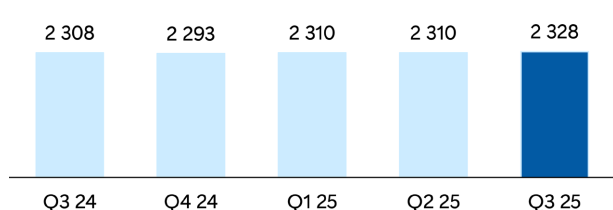

Fig. 1. Financial performance

Net interest income

Net interest income amounted to NOK 2,328 million for the third quarter of 2025, an increase of NOK 18 million from the previous quarter. Corrected for number of days, this represents a reduction of NOK 7 million. The reduction was due to a slightly lower net interest margin. Compared with the same quarter last year, net interest income increased by NOK 20 million, which was mainly due to growth in lending and deposits.

Fig. 2, Net interest income

The average net interest margin was 1.79% in the third quarter of 2025, compared with 1.86% in the second quarter of 2025 and 1.93% in the same quarter last year.

Net commission and other income	778	858	694

Net commission and other income amounted to NOK 778 million for the third quarter of 2025, a decrease of NOK 80 million compared with the previous quarter. The decrease was mainly due to decreased commissions from the real estate agencies and accounting firms, due to seasonal effects. This was partly offset by increased income from payment facilities and insurance, amounting to NOK 25 million and NOK 8 million.

Compared with the third quarter of 2024, there is an increase of NOK 84 million. The increase was mainly due to higher commissions from the real estate agencies as

a result of the incorporation of Ullevål Eiendomsmegling AS and Kaland & Partners AS and higher activity. Income from insurance increased by NOK 22 million, this was partly offset by a NOK 11 million reduction in income from payment facilities.

Net income on financial investments	443	373	743

Net income on financial investments amounted to NOK 443 million in the third quarter of 2025, an increase of NOK 70 million compared with the previous quarter. The increase were mainly due to positive MtM changes for derivatives and certificates and bonds of NOK 141 million and NOK 41 million, but was partially offset by negative MtM change for shares and equity certificates. Dividends was reduced by NOK 87 million and income from ownership interests are increased by NOK 10 million. Dividends were received from SpareBank 1 Boligkreditt AS, SpareBank Næringskreditt AS and Rogaland Sparebank AS in the second quarter. See table 3 for details on income from ownership interests. Please also see the later sections for detailed descriptions of the performance of the individual companies.

Compared with the same quarter last year, adjusted for one-off items in the third quarter of 2024, net income from financial investments rose by NOK 171 million. The increase was mainly due to positive MtM change in derivatives and certificates and bonds by NOK 150 million and NOK 53 million respectively.

The group's operating expenses amounted to NOK 1,314 million in the third quarter of 2025, a reduction of NOK 100 from the previous quarter. In the third quarter of 2025, NOK 78 million was related to merger expenses, compared with NOK 69 million in the previous quarter. In the previous quarter a provision of NOK 74 million was made in connection with a court judgment in the case against Tietoevry Norway AS. Corrected for the aforementioned one-off items, costs declined by NOK 35 million. The reduction is due to effective cost control within the group.

Compared with the third quarter of 2024, costs increased by NOK 46 million. Adjusted for merger costs, the increase was NOK 64 million and is primarily attributable to higher costs from the real estate agencies, in connection with mergers and higher activity levels.

The group's cost to income ratio was 37.0% in the third quarter of 2025, compared with 39.9% in the second quarter of 2025 and 33.8% in the same quarter last year. The banking group's cost to income ratio¹ was 35.7% for the third quarter of 2025, compared with 39.1% for the previous quarter.

Impairments on loans and financial commitments, and loans and financial commitments in Stage 3

The group recognised impairments on loans and financial commitments totalling NOK 115 million in the third quarter of 2025, compared with NOK 76 million for the previous quarter and NOK 166 million for the third quarter of 2024.

In the third quarter of 2025, NOK 88 million of the impairments were individual impairments, while NOK 28 million were model-based impairments. The increase in individual impairments is mainly related to exposures in the corporate market.

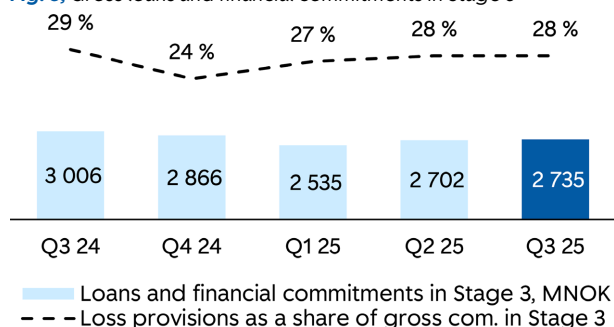

The group's impairment on loans and financial commitments amounted to 0.12% of gross loans in the third quarter of 2025, compared with 0.08% in the second quarter of 2025 and 0.18% in the third quarter of 2024.

The group's loans and financial commitments are classified into three groups: Stage 1, Stage 2 and Stage 3. Stage 3 is used for loans and financial commitments that have seen a significant rise in credit risk since being granted and where there is objective evidence of a loss event on the balance sheet date. The loss provision must cover expected losses over their lifetime for these loans and financial commitments.

Gross loans and financial commitments classified as Stage 3 amounted to NOK 2,735 million at the end of the third quarter of 2025, compared with NOK 2,702 million in the previous quarter and NOK 3,006 million in the third quarter of 2024. The reduction compared with the same period last year was mainly due to the phasing out of exposures.

¹ The consolidated cost to income ratio equals total income less net income from financial investments divided by costs in the banking group. The banking group includes SpareBank 1 Sør-Norge (parent bank) and SR-Boligkreditt AS.

Fig. 3. Gross loans and financial commitments in Stage 3

The Group's performance year to date

As of 30 September 2025, the group reported an operating profit before tax of NOK 6,356 million, an increase of NOK 730 million compared with the corresponding period in 2024 adjusted for one-off items.

One-off items in 2024; NOK 577 million gain from merger of Eika Forsikring and Fremtind Forsikring and NOK 105 million writedown of Folkeinvest- One off items in 2025; a NOK 45 million increase in merger costs and NOK 74 million related to a court judgment in the case against Tietoevry Norway AS.

The improved result was due to an increase in net interest income of NOK 122 million due to growth in lending and deposits. Net commissions and other income increased operating profit by NOK 271 million due to the increase in commissions from real estate agencies and insurance. Net income on financial investments was up by NOK 499 million. The increase was due to positive MtM change in financial instruments and increased income from ownership interests.

Operating expenses totaled NOK 4,010 million, an increase of NOK 270 million compared with the same period last year. The increase is primarily attributable to higher costs in the real estate agencies, in connection with mergers and higher activity levels.

The group's year to date cost to income was 37.9%, compared with 35.6% for the same period last year.

Impairments on loans and financial commitments amounted to NOK 215 million, compared with NOK 323 million for the same period last year. Impairments on loans and financial commitments are mainly related to exposures in the corporate market.

The group's return on equity after tax was 13.1% (14.7% adjusted for goodwill from the merger and one-off items) compared with 14.7% for the same period last year.

Loans and deposits from customers

In the following, volume figures for the third quarter of 2025 are compared with pro forma figures for previous periods.

Gross lending amounted to NOK 415 billion, including loans sold to the credit institutions at the end of the third quarter of 2025 (NOK 397 billion). Gross lending growth in the past 12 months was 4.4% (6.1%).

In the past 12 months, Retail Market (incl. loans to employees), SME and Agriculture and Corporate Market have seen lending growth of 6.1%, 9.1% and -2.3% (-1.8% adjusted for foreign exchange effects), respectively.

Fig. 4, Lending growth (12 months)

Loans to the retail market accounted for 66.7% of total loans at the end of the third quarter of 2025 (65.6%).

The group's total loan exposure of NOK 462.4 billion includes a majority of exposures with a probability of default of less than 0.5%. These commitments accounted for 66.9% (66.0%) of the portfolio. The overall loan portfolio largely consists of exposures of less than NOK 10 million. These accounted for 66.1% (66.7%) of loan exposure and 97.6% (97.7%) of customers. Of the total loan exposure, 19.9% (18.8%) was to customers with exposures in excess of NOK 100 million.

Deposits from customers amounted to NOK 223 billion at the end of the third quarter of 2025 (NOK 204 billion). Deposit growth was 9.7% in the past 12 months (-1.4%). Retail Market, SME and Agriculture and Corporate Market reported lending growth of 10.4%, 5.9% and 14.6%, respectively. At the end of the third quarter of 2025, deposits in Retail Market accounted for 55.6% (55.3%) of the group's deposits.

Deposit coverage, including loans sold to the credit institutions, was 53.9% at the end of the third quarter of 2025 (51.2%).

Business areas

SpareBank 1 Sør-Norge ASA is divided into different business areas, which are defined on the basis of their form of distribution, products and customers. The reporting format is based on the risk and return profile of the assets and is split into Retail Market, SME and Agriculture, Corporate Market and significant subsidiaries. Retail

Market's income statement and balance sheet items include figures from SR-Boligkreditt AS and SpareBank 1 Boligkreditt AS. Similarly, the volume from SpareBank 1 Næringskreditt AS is included in SME and Agriculture, as well as Corporate Market.

Retail Market²

Retail Market, including Private Banking, posted an operating profit before impairments of NOK 931 million for the third quarter of 2025, compared with NOK 957 million in the previous quarter. The decrease was mainly due to higher costs. The increase in costs is primarily due to payment of holiday allowance in June, which lowers the payroll costs in the business area in the second quarter.

Table 5, Retail Market

Pre-tax profit	927	965

The volume of lending in Retail Market was NOK 269 billion at the end of the third quarter of 2025. Retail Market is seeing very high demand for loans. Lending has grown by 6.2% (NOK 16 billion) in the past 12 months. On a national basis, the 12-month growth figure for Norwegian household debt was 4.4% at the end of September. The deposit volume was NOK 124 billion at the end of the third quarter of 2025, corresponding to 12-month growth of 11.1% (NOK 12 billion).

Net interest income increased by NOK 40 million compared to the previous quarter, mainly due to increased balance sheet growth, decreased nibor and an additional interest rate day. Other income increased by NOK 21 million, primarily due to increased income from insurance and payment facilities.

NOK 3 million in impairments on loans and financial liabilities were posted in the third quarter of 2025.

² The interest on intracompany receivables for Retail Market, SME and Agriculture and Corporate Market is fixed based on expected observable market interest rates (NIBOR) plus expected additional costs for the group's long-term funding (credit premium). Deviations between the group's actual funding costs and the applied interest on intercompany receivables are eliminated at the group level.

The quality of the retail market portfolio is considered very good and the potential for losses low. The proportion of loan exposure within 85% of the loan to value ratio was 91.9% at end of the third quarter of 2025 (95.4%).

SME and Agriculture ²

SME and Agriculture posted an operating profit before impairments of NOK 430 million for the third quarter of 2025, compared with NOK 435 million for the previous quarter.

Operating expenses	64	43
Operating profit before impairments	430	435
Impairments on loans and financial commitments	28	52
Pre-tax profit	402	383

Operating profit decreased by NOK 5 million, mainly due to higher costs. The increase in costs is primarily attributable to the payment of holiday allowance in June, which lowers the payroll costs in the business area in the second quarter.

In the third quarter of 2025, NOK 28 million was charged as impairments on loans and financial liabilities, mainly due to individual losses.

The lending volume in the division was NOK 42 billion at the end of the third quarter of 2025, corresponding to growth over the past 12 months of 9.1%. The deposit volume amounted to NOK 39 billion and the 12-month deposit growth rate was 5.9%.

The quality of the SME and Agriculture portfolio is considered good. The proportion of exposures with a probability of default of less than 2.5% through a full loss cycle was 85.5% of the portfolio at the end of the third quarter of 2025 (85.4%).

Corporate Market ²

Corporate Market posted an operating profit before impairments of NOK 649 million for the third quarter of 2025, compared with NOK 677 million for the previous quarter.

Table 7, Corporate market

Operating expenses	63	39
Operating profit before impairments	649	677
Impairments on loans and financial commitments	84	33
Pre-tax profit	565	645

The reduction in operating profit was due to a decrease in income from financial investments, increased costs and impairments. Net income on financial investments declined due to negative MtM change on shares and reduced income from foreign exchange trading. Increased costs in the third quarter are primarily due to the payment of holiday allowance in June, which lowers the payroll costs in the business area in the second quarter.

The lending volume in the division amounted to NOK 96 billion at the end of the third quarter of 2025. Lending growth for the last 12 months was -2.3%. The lending growth reflects low overall market credit growth and strong competition, however there are signs of higher activity at the beginning of the fourth quarter. The deposit volume was NOK 62 billion, corresponding to growth in the past 12 months of 14.6%.

The quality of the Corporate Market portfolio is considered good. The proportion of exposures with a probability of default of less than 2.5% through a full loss cycle was 87.1% of the portfolio at the end of the third quarter of 2025 (89.1%). The property sector portfolio represents the group's largest concentration in a single sector and accounted for 12.2% (12.7%) of total loan exposure. A large portion of this portfolio consists of financing commercial properties for leasing.

Subsidiaries

EiendomsMegler 1 Sør-Norge AS

The company reported revenue of NOK 153 million for the third quarter of 2025, compared to NOK 183 million for the previous quarter. The profit before tax decreased from NOK 43 million to NOK 7 million. The decrease is attributed to seasonal effects.

Compared with the third quarter of 2024, revenue increased by NOK 45 million and profit before tax improved by NOK 5 million. 80% of the growth in earnings year to date is linked to mergers.

Overall, the company is the largest actor in real estate brokerage in the counties of Rogaland, Vestland and Agder, with a stable market share of just under 20%. On October 1, 2025 EiendomsMegler 1 Sørøst-Norge AS merged with EiendomsMegler 1 Sør-Norge AS.

The company reported revenue of NOK 70 million for the third quarter of 2025, compared to NOK 84 million for the previous quarter. The decrease is due to seasonal effects. The profit before tax amounted to NOK 5 million, compared to NOK 16 million for the previous quarter.

Compared to the third quarter of 2024, revenue increased by NOK 8 million and profit before tax increased by NOK 4 million. Overall, the company is the largest player in real estate brokerage in the counties of Buskerud and Vestfold, with a stable market share of the used homes market of just over 22%.

EiendomsMegler 1 Telemark AS

The company reported revenue of NOK 33 million for the third quarter of 2025, an increase of NOK 10 million compared with the previous quarter. The profit before tax rose from NOK 7 million to NOK 13 million.

Compared to the third quarter of 2024, revenue increased by NOK 5 million and profit before tax by NOK 2 million.

During the third quarter, SpareBank 1 Sør-Norge ASA acquired Skien Boligbyggelag's shares in the company, thereby increasing its total ownership to 100 percent. At the same time, a strategic partnership was established with Skien Boligbyggelag.

SpareBank 1 Sør-Norge ForretningsPartner AS

The company reported revenue of NOK 104 million for the third quarter of 2025, compared to NOK 154 million for the previous quarter og NOK 107 million for the third quarter of 2024. Profit before tax amounted to NOK -7 million for the third quarter of 2025, compared with NOK 20 million for the previous quarter and NOK -8 million for the third quarter of 2024. The decline in revenue and decrease in earnings from the previous quarter are attributable to seasonal variations.

SpareBank 1 Sør-Norge ForretningsPartner AS enjoys a solid market position in accounting services, with offices in Rogaland, Vestland, Oslo and Agder.

SR-Boligkreditt AS

The company's purpose is to purchase residential mortgages from SpareBank 1 Sør-Norge ASA, and it funds this by issuing covered bonds. SR-Boligkreditt AS enables the parent company to diversify and optimise its funding. Moody's has given SR-Boligkreditt AS its best rating, Aaa.

At the end of the third quarter of 2025, the company had issued covered bonds with a nominal value of NOK 123 billion (NOK 101 billion) and bought loans worth NOK 122 billion (NOK 106 billion) from SpareBank 1 Sør-Norge ASA.

The company reported a profit before tax of NOK 351 million for the third quarter of 2025, compared with NOK 221 million for the previous quarter and NOK 158 million for the third quarter of 2024. High volatility in the results due to large fluctuations in the market value of basis swaps. Net interest income amounted to NOK 254 million for the third quarter of 2025, an increase of NOK 14 million from the previous quarter. Compared to the third quarter of 2024, net interest income increased by NOK 29 million.

FinStart Nordic AS

FinStart Nordic AS has invested in, and contributed to the development and growth of, innovative financial technology companies. The aim is to strengthen and expand the group's value chains and help streamline the group by supplying innovative products and services. The company also manages the portfolio of a former subsidiary that primarily had investments linked to the oil industry. FinStart Nordic AS will going forward focus on extracting value from existing portfolios.

Profit before tax amounted to NOK 3 million for the third quarter of 2025, compared with NOK 35 million for the previous quarter and NOK -10 million for the third quarter of 2024. The decrease from the previous quarter is due to the sale of the company Aritma in the second quarter of 2025.

Associated companies

SpareBank 1 Sør-Norge ASA's profit contributions from associated companies were incorporated using the equity method. These totalled NOK 266 million for the third quarter of 2025, compared with NOK 256 million for the previous quarter and NOK 819 million for the third quarter of 2024. In the third quarter 2024 NOK 577 million relates to the gain from the merger of Eika Forsikring and Fremtind Forsikring.

SpareBank 1 Alliance

The SpareBank 1 Alliance is Norway's second largest financial group and is a banking and product partnership in which the SpareBank 1 banks in Norway cooperate in order to keep them strong and independent. The purpose of the Alliance is to procure and provide competitive financial services and products, and to exploit economies of scale in the form of lower costs and/or higher quality. The Alliance

is run through its ownership and participation in SpareBank 1 Utvikling DA, while the development and operation of product companies are organised through the banks' ownership of the holding company SpareBank 1 Gruppen AS.

SpareBank 1 Gruppen AS

SpareBank 1 Gruppen AS owns 100% of the shares in SpareBank 1 Forsikring AS, SpareBank 1 Factoring AS, and SpareBank 1 Spleis AS. SpareBank 1 Gruppen AS also owns 51% of the shares in Fremtind Holding AS, 69% of the shares in Kreditor AS, and 49% of the shares in LO Favør AS. Funding and liquidity

SpareBank 1 Sør-Norge ASA has a solid liquidity position at the end of the third quarter of 2025 and expects to maintain good access to long-term funding at competitive prices. The group strives for a balanced maturity profile for funding and emphasises strong relations with Norwegian and international investors and banks. The liquidity buffer³ was NOK 81.6 billion at the end of the third quarter of 2025 (NOK 65.4 billion) and would cover normal operations for 29 months (32 months) in the event of closed markets and without net lending growth. NOK 25 billion of the bank's external funding will come due in the next 12 months. In addition to the liquidity buffer, the bank has NOK 66 billion in residential mortgages ready for covered bond funding.

Over the past 12 months, the group has maintained a high proportion of long-term funding. The group's net stable funding ratio (NSFR)⁴ was 133% at the end of the third quarter of 2025 (134%), which confirms the group's good funding situation.

SpareBank 1 Sør-Norge ASA has an Aa3 (stable) long-term rating and a P-1 short-term rating from Moody's. SpareBank 1 Sør-Norge ASA's has in addition a A1 short-term rating from S&P.

Capital ratio

Table 8. Capital adequacy

	Q3 25	Q2 25	Q1 25
CET1 capital ratio	18.51	18.63	18.29

Capital ratio	23.19	23.47	22.93
Leverage ratio	7.44	7.33	7.54

At the end of the third quarter of 2025, the CET1 capital ratio was 18.51%, and the capital adequacy ratio was 23.19%. This exceeds the current CET1 capital ratio requirement of 17.53% and the capital adequacy requirement of 22.08%.

The total requirement for SpareBank 1 Sør-Norge ASA's CET1 capital ratio was 17.53% at the end of the third quarter of 2025. The requirement includes the systemic risk buffer (4.45%), the countercyclical buffer (2.48%), the Pillar 2 premium (1.07%), the temporary Pillar 2 premium (0.28%), the systemic importance buffer (1.0%) and the Pillar 2 guidance (1.25%).

The Financial Supervisory Authority's preliminary assessment is that the bank's CET 1 capital ratio requirement will be reduced from 17.53% to 17.06% at the end of the year. The Pillar 2 premium in the CET1 capital is reduced from 1.35 % to 1.13% and the expectation for the Pillar 2 guidance will be changed from 1.25% to 1.00%.

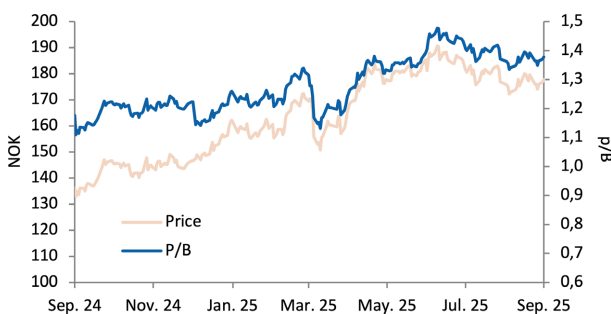

EU's crisis management directive and MREL

Based on the EU Crisis Management Directive (BRRD), the group must meet a minimum requirement for own funds and eligible liabilities (MREL). SpareBank 1 Sør-Norge ASA has an effective MREL requirement of 39.2% of the adjusted risk-weighted assets. In addition, subordinated capital and non-preferred liabilities must account for at least 31.3%. At the end of the third quarter of 2025, SpareBank 1 Sør-Norge ASA had issued senior non-preferred debt equivalent to NOK 21.8 billion and thus satisfies the subordination requirement by a good margin.

The bank's share

The price of the bank's share (SB1NO) was NOK 177.80 at the end of the third quarter of 2025. This results in an effective return of 27.1% since year end 2024. The Oslo Børs's main index rose by 15.4% in the corresponding period (not corrected for dividends). 2.5% of outstanding SB1NO shares were traded in the third quarter of 2025 (3.5%).

Fig. 5. Share price and price/book

The group has a special share savings scheme for the group's employees. All permanent employees have an opportunity to purchase shares for a specified savings amount, limited to a maximum of NOK 5,000 per employee per month, at a 30% discount and with a lock-in period of 2 years. Around 76% of the group's employees have signed a regular savings agreement for the share savings scheme in 2025.

Sustainable development

The sustainability strategy is part of the group Strategy and was revised in autumn 2025. The revised strategy places increased emphasis on integrating sustainability into the commercial strategy and business development. Social sustainability in relation to customers, suppliers, and society is a key focus area. SpareBank 1 Sør-Norge ASA aims to contribute to achieving the Paris Agreement goal of limiting global warming to 1.5°C. To support this ambition, the group has set a target of net zero greenhouse gas emissions by 2050, both from its own operations and from its lending and investment portfolios.

For material industries—measured by lending volume, greenhouse gas emissions, and energy consumption—as well as for the group's own operations, specific emission pathways have been adopted with emission trajectories toward 2050. International shipping, commercial real estate, and residential real estate have annual targets, including for 2030 and 2050. Oil and gas have targets for 2030 and 2050, while agriculture has targets only for 2030. The new strategy places greater emphasis on translating the transition plans into concrete actions for advisors and customers. The transition plan is available on the group's website.

As part of this work, a target has been set to increase the share of lending that qualifies under the group's sustainable finance framework to 25 percent by 2030. At the end of the third quarter of 2025, the bank had financed approximately NOK 72 billion that qualifies, corresponding to 18.3 percent of total lending.

Targets have also been set related to the social dimension, our employees, and our customers, and active efforts are being made to follow up on these. For an overview of all the group's targets, please refer to the 2024 annual report.

Increased synergies

The estimated synergies from the merger have been revised upwards, due to stronger effects from operational and funding synergies. This contributes positively to the group's cost development and operating profits. Total synergies are increased by NOK 150 million from the previous quarter and the total estimate is NOK 450 million annually from and including 2027.

The group is on schedule with respect to realising funding, operational and personnel synergies. Synergies are being realised in line with plans and were approximately NOK 126 million at the end of the third quarter of 2025 (on an annualized basis).

Outlook

Uncertainty surrounding economic growth persists, driven by developments in trade policy and geopolitical instability. While increased tariffs are constraining growth among trading partners, their impact on inflation has so far been limited.

Norges Bank reduced its policy rate from 4.25% to 4.00% at its interest rate meeting in September. The central bank also indicated that the policy rate can be cut further down to 3.2% by the end of 2028. The inflation rate is declining, but remains above target.

Our surveys of companies in the group's market area show strong optimism among companies in the Southern Norway, particularly in Rogaland and Vestland. The companies are expecting higher employment and increased revenue, but global trade conditions and rising tariffs are creating uncertainty around investments and profitability.

The board considers the quality of the loan portfolio to be good, despite the trade turmoil and uncertainty in the international market.

The group's long-term financial target for the return on equity is higher than 14% and to be among the top three comparable banking groups in Norway. This will be achieved through profitable growth in lending and other income, cost and capital efficiency and realising of synergies.

The group's cost to income ratio target is less than 40%.

The group's dividend policy is to distribute above 50% in cash dividend of the profit for the year. The group has established a share buyback program as a supplement to cash dividends. Consideration must be given to financial needs, including capital adequacy requirements and the group's targets and strategic plans, when determining the annual dividend.

Based on the authorities' CET1 capital ratio requirements and the Pillar 2 guidance, the group's CET1 capital ratio target is a minimum of 17.53%. The CET1 capital ratio is expected to be reduced to 17.06% in connection with the Norwegian FSA's notice of its decision on the Pillar 2 premium and Pillar 2 Guidance. Based on the calculated effects of the regulatory changes, the board believes that SpareBank 1 Sør-Norge ASA is well-positioned for profitable growth and strong capital distribution.

The board is of the opinion that the drivers of structural change in the savings bank sector remain highly relevant, and it will take a proactive approach to structural changes in the sector in order to safeguard and create value for customers, employees, owners and local communities.

Note 1 Accounting policies

1.1 Basis of preparation

These interim financial statements for SpareBank 1 Sør-Norge ASA cover the period 1 January - 30 September 2025. The interim financial statements were prepared in accordance with IAS 34 Interim Financial Reporting. The interim financial statements are unaudited. These interim financial statements were prepared in accordance with the applicable IFRS® standards and IFRIC interpretations.

The interim financial statements do not include all the information required for full annual financial statements and should be read in conjunction with the annual financial statements for 2024.

On 29 August 2025, the Norwegian Financial Supervisory Authority granted permission to SpareBank 1 Sør-Norge ASA to include the portfolio from the former SpareBank 1 Sørøst-Norge in its IRB system.

New and revised standards not yet implemented :

There are no other new standards, amendments to standards or interpretations which has been implemented since 01.01.2025 with material effect on the group or parent bank's financial statements.

New standards and interpretations that have not been adopted yet:

There are a number of new standards, changes to the standards and interpretations that are mandatory for future annual accounts. There are no standards or interpretations that have not been adopted yet, that are expected to have any material effects on the group's statements.

Note 2 Critical estimates and judgements concerning use of the accounting policies

The preparation of the consolidated financial statements entails the group executive management making estimates, judgements and assumptions that affect the effect of the application of the accounting policies and thus the amounts recognised for assets, liabilities, income and costs. Note 3 of the annual financial statements for 2024 explains in more detail the use of critical estimates and judgements when applying the accounting policies.

Impairments on loans

The group's assessment of critical estimates and judgements concerning the use of the accounting policies has not changed since 31.12.2024.

The group conducts annual evaluation of its corporate market portfolio. High-risk exposures in the corporate market portfolio are evaluated on a quarterly basis. Loans to retail customers are subject to evaluation when they are more than 90 days past due; larger exposures in default are evaluated on a quarterly basis.

The group's risk classification systems are described under financial risk management in the annual report.

The group carries out an impairment if there is objective evidence that can be identified for an individual exposure, and the objective evidence entails a reduction in future cash flows for servicing the exposure. Objective evidence may be default, bankruptcy, insolvency or other significant financial difficulties.

Individual impairment provisions are calculated as the difference between the loan's book (carrying) value and the present value of future cash flows based on the effective interest rate at the time of the calculation of the initial individual impairment. Account is taken of subsequent changes in interest rates for loan agreements with variable rates if these changes affect the expected cash flow. For smaller exposures, the general rule is that the difference between the actual exposure at the time of impairment and the realisation value (underabsorption) of the pledged collateral is written down, and that the impairment is based on one scenario. For larger exposures, the general rule is that the difference between the actual exposure and the bank's assessment of the discounted value of the customer's future cash flow is written down, and the impairment is based on three scenarios.

According to IFRS 9, loss provisions are recognised for all exposures based on expected credit loss (ECL). The measurement of the provisions for expected losses on exposures that are not individually impaired depends on whether or not the credit risk has increased significantly since initial recognition. Upon initial recognition and when the credit risk has not increased significantly after initial recognition, provisions must be made for 12 months' expected losses. If the credit risk has increased substantially after initial recognition, provisions must be made for expected losses over the entire lifetime. Expected credit loss is calculated on the basis of the present value of all cash flows over the remaining expected lifetime.

Climate related issues are given increased attention in the credit assessments, and the related risks are first and foremost uncovered through the utilisation of an ESG-module in the credit related work. Climate-related risk is also taken into account in the assessment of individual impairments. A need for specific, climate related impairment provisions has so far not been deemed necessary. The scoring from the ESG-module is included in the stress test-model which is used, among other things, for the preparation of climate-related stress tests. Further development and clarifications regarding how expectations of climate related credit losses are to be included in the impairment provisions/IFRS 9-model are still needed. Also refer to note 6 in the annual financial statements for 2024.

A probability weighted average is calculated for four different scenarios: an upside scenario, a base scenario, a sector crisis scenario and a stress scenario, respectively. The base scenario is based on the most recent edition of "Monetary Policy Report", and represents a normal business cycle. The upside scenario represents a period of economic growth with better macro economic prospects than the base scenario. The sector crisis scenario represents a sector-specific downturn period, currently based on a scenario involving a prolonged trade war. This selected sector crisis scenario is aligned with the group's overall scenario framework. The stress scenario is linked to the group's periodic internal capital adequacy assessment process (ICAAP) for a period of comprehensive economic decline. The scenarios are reviewed quarterly by an internal working group consisting of senior-level personnel and are adjusted if there are significant changes in the macroeconomic outlook. In Q3 2025, some model improvements were implemented, which, together with macroeconomic developments and a slight negative trend in credit risk, contribute to an increase in loan loss provisions. Additionally, the scenario weighting has been adjusted to reflect a more severe sector crisis scenario. The total impairment charges for exposures without individual write-downs have increased by NOK 28 million. This increase should be viewed in relation to exposures that were individually written down during the period.

The choice of scenarios and their weighting are regularly reviewed (at least once a year) by the aforementioned working group. As at 30.09.2025, the upside scenario had a 5% weighting, the base scenario had a 85% weighting, the adverse scenario had a 7,5% weighting, and the stress scenario had a weighting of 2,5%. The weighting is the same for all portfolios and reflects the uncertainty associated with economic developments going forward. In order to illustrate the associated weight sensitivity, a simulation of the effects of a more conservative scenario weighting was conducted in which the weight of the upside scenario is unchanged at 5%, base scenario was reduced to 75%, the adverse scenario were increased to 10,0% and the stress scenario were increased to 10,0% . Such a change in the scenario weighting would, all else equal, increase the group's expected impairment losses for commitments without individual impairment by NOK 236 million.

Closely monitoring customers and prevention work are important measures actively employed by the group to maintain its good risk profile in the group's loan portfolio.

Fair value of financial derivatives and other financial instruments

The fair value of derivatives is determined using valuation methods where the price of the underlying instrument, for example, interest rate or currency rate, is obtained from the market. When measuring financial instruments for which observable market data is not available, the group makes assumptions regarding what market actors would base their valuation on for equivalent financial instruments. Valuations require extensive use of discretion, including when calculating liquidity risk, credit risk and volatility. Any change in the aforementioned factors will affect the fair value determined for the group's financial instruments. For more information see note 25 on the classification of financial instruments in the annual financial statements for 2024. In the case of options, volatility will be either observed implicit volatility or calculated volatility based on historical price movements for the underlying object.

IT-infrastructure

Furthermore, several measures have been implemented to secure the bank's IT infrastructure and to prevent potential cyber-attacks on the most critical systems and processes.

The group's assessments of critical estimates and judgements regarding its use of accounting policies are challenging but are currently considered to be the best estimate

1) Financial commitments include guarantees, undrawn credit and loan commitments

2) Financial commitments provide the basis for impairment losses under IFRS 9

Note 7 Capital adequacy

Capital adequacy is calculated and reported in accordance with the EU's capital requirements for banks and securities undertakings (CRD IV/CRR). SpareBank 1 Sør-Norge has permission from the Financial Supervisory Authority of Norway to use internal measurement methods (Internal Rating Based Approach) for quantifying credit risk. The use of IRB requires the bank to comply with extensive requirements relating to organisation, expertise, risk models and risk management systems. The total requirement for SpareBank 1 Sør-Norge ASA's Common Equity Tier 1 capital ratio was 17.53% at the end of the third quarter of 2025.

1) Common equity Tier 1 capital is affected by deductions linked to deferred tax assets (DTA). In addition, the total risk exposure amount under the item other assets is affected. DTA arise due to temporary differences between accounting and tax results. These differences will even out over time, but can significantly impact taxes payable and DTA recognised in the the balance sheet in certain periods, and thereby negatively affect the capital adequacy.

2) On 1 July 2025, the Ministry of Finance increased the IRB risk weight floor for residential mortgages from 20% to 25%.

3) On 29 August 2025, the Norwegian Financial Supervisory Authority granted permission to SpareBank 1 Sør-Norge ASA to include the portfolio from the former SpareBank 1 Sørøst-Norge in its IRB system.

1) Net interest income contains allocated arrangements between the segments. The interest on intercompany receivables for the retail market, corporate market and SME & agriculture is determined on the basis of expected observable market interest rates (NIBOR) plus expected additional costs in connection with the group's long-term funding (credit premium). Deviations between the Group's actual funding costs and the applied interest on intercompany receivables are eliminated in the parent bank.

1) In 2024 the group recognised its share of SpareBank 1 Gruppen's profit of NOK 452 million from the merger of Fremtind Forsikring and Eika Forsikring

Note 12 Liquidity risk

Liquidity risk is the risk that the group is not able to refinance its debt or is not able to finance an increase in assets. The bank's framework for managing liquidity risk shall reflect the bank's conservative risk profile. The board has adopted internal limits such that the bank has as balanced a maturity structure for its borrowing as possible. Stress testing is conducted for the various terms of maturity for bank-specific crises, system crises and combinations of these. A contingency plan has also been put in place to manage liquidity crises. The average remaining term to maturity in the portfolio of senior bond funding and covered bonds was 3.5 years at the end of the third quarter of 2025. The total LCR was 148% at the end of the third quarter, and the average total LCR was 169% in the quarter. The LCR in NOK and EUR at the end of the quarter was 126% and 215%, respectively.

Note 13 Information about fair value

Group

The table below shows financial instruments at fair value according to their valuation method. The different levels are defined as follows:

Level 1: Listed price in an active market for an identical asset or liability

Level 2: Valuation based on observable factors other than listed price (used in level 1) either direct (price) or indirect (deduced from prices) for the asset or liability.

Level 3: Valuation based on factors not obtained from observable markets (non-observable assumptions)

¹⁾ Value changes are recognised in net income from financial instruments. Other assets are measured using various methods such as last known transaction price, earnings per share, dividend per share, EBITDA and discounted cash flows. Fixed-rate loans are measured on the basis of the interest rate agreed with the customer. Loans are discounted using the applicable having taken into account a market premium, which is adjusted for the profit margin. The conducted sensitivity analyses indicate an increase in the discount rate of 10 basis points would have a negative effect on the result amounting to NOK 29 million.
